

Ground Piercing Tool MGP45

Key Features:

- Greater target accuracy than traditional pneumatic boring tools
- In just one simple step, the Molding tool performs a bore and pulls in pipe behind it
- Minimal disruption to traffic, buildings, and other utilities
- Avoids sizable surface damage and costly restoration required for old trenching methods
- Accelerated project completion timeline
- Easy to set up and operate
- Minimal crew size
- Unique reverse mechanism. You can easily reverse the unit during the bore, by adjusting a lever on the lubricator control system. There is no need to turn off the air hose or stop the Molding tool
- Easily launched by hand or from a cradle
- Patented reciprocating stepped-cone chisel head
- Minimal tool setup for fast, profitable work
- Durable construction means little maintenance

Specifications:

| Specifications | Metric | Imperial |
|-----------------|---------|----------|
| Weight | 7.3 kg | 19 lb |
| Length | 915 mm | 36 in |
| Air Consumption | 6.8 l/s | 16 cfm |
| Air Pressure | 6.5 bar | 95 psi |
| Impact Rate | 550 BPM | |
